

1. Identification of Substance and Company

Product Name:	Armor All Cleaning Wipes
Other Names:	None
HSNO Approval:	HSR002530 - Cleaning Products (Subsidiary Hazard) Group Standard 2006
UN Number:	Not Applicable
Packaging group:	Not Applicable
Hazchem Code:	1[T] (recommended)
Uses:	Wipes moistened with milky white liquid to clean and protect leather surfaces

Company Details

Company:	Spectrum Brands New Zealand Limited
Address:	Level one, 8 Hugo Johnson Drive, Penrose, 1061, Auckland, New Zealand
Telephone Number:	+64-9-571-7700
Emergency Telephone Number:	0800 764 766

2. Hazard Identification

Hazard Classifications

This product has been approved under the Hazardous Substances and New Organisms Act (HSNO, Approval HSR002530 Cleaning Products (Subsidiary Hazard) Group Standard 2006), and is classified as follows:

Classes 6.1 E, 6.3 A, 6.4 A, 9.1 D

Symbols:
WARNING

Degree of hazard:

Other classifications

There are no other Classifications that are known to apply.

Hazard and Precautionary Statements

Hazard Statements	May be harmful if swallowed Causes skin irritation. Causes eye irritation.
Precautionary Statements	May cause long lasting harmful effects to aquatic life. Keep out of reach of children. Read label before use. Wash hands thoroughly after handling. Wear protective gloves/protective clothing. Wear eye/face protection. Avoid release to the environment. Collect spillage.

Further precautionary statements can be found in Section 4 – First Aid.

3. Composition/Information on Ingredients

Component	CAS No	Proportion
Linear alcohol ethoxylates	68131-39-5 68439-46-3	1 - 5%
<i>n</i> -Propoxypropanol	1569-01-3	1 - 5%
Wipes (polymer, inert)	Proprietary	To 100%

This is a commercial product whose exact ratio of components may vary. Trace quantities of impurities are also likely.

4. First Aid			
<i>General Information</i>			
You should call the National Poisons Centre if you feel that you may have been harmed or irritated by this product. The number is 0800 764 766 (24 hr emergency service).			
Recommended first aid facilities	Ready access to running water is recommended. Accessible eyewash is recommended.		
<i>Exposure</i>			
Swallowed	IF SWALLOWED: Do NOT induce vomiting. Rinse mouth. If vomiting occurs, place victim face downwards, with the head turned to the side and lower than the hips to prevent vomit entering the lungs.		
Eye contact	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Apply continuous irrigation with water for at least 15 minutes holding eyelids apart. If eye irritation persists: Get medical advice.		
Skin contact	IF ON SKIN (or hair): Wash with plenty of soap and water. If skin irritation occurs: get medical advice/attention. Take off contaminated clothing and wash before re-use.		
Inhaled	IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing. Call a doctor if you feel unwell.		
<i>Advice to Doctor</i>			
Treat symptomatically.			
5. Firefighting Measures			
Fire and explosion hazards	Flashpoint (liquid): >93°C (closed cup)		
Suitable Extinguishing Substances	Water, water fog, dry chemical, foam or carbon dioxide (CO ₂) fire extinguishers		
Unsuitable extinguishing substances	None known.		
Protective Equipment	Respiratory protection.		
Danger caused by material, its combustion products or gases produced	Oxides of carbon.		
Hazchem Code	1[T] (note: not a dangerous good)		
6. Accidental Release Measures			
Containment	If greater than 10000L is stored, secondary containment is required. Emergency plans to manage any potential spills must be in place. Prevent spillage from spreading or entering soil, waterways or drains.		
Emergency procedures	The packaging and nature of the product generally will prevent major spills. If wipes do spill: Stop spill if safe/necessary. Isolate area (ensure no persons inside spill area). Collect wipes – see below. Transfer to container for disposal. Dispose of according to guidelines below (Section 13)		
Clean-up method	This product is not considered flammable. Small spills do not require any special clean up method. Large spills (e.g., 200 L) can be collected by absorption onto material such as sand, vermiculite or other suitable absorbent material and should be prevented from entering stormwater drains or waterways. If a significant quantity of material enters drains, advise emergency services. After spills, wash area preventing runoff from entering drains.		
Precautions	Wear protective footwear, overalls, gloves and safety glasses to clean-up large spills.		
7. Handling and Storage			
Storage	Avoid storage of toxic substances with food. Store out of reach of children. Avoid contact with incompatible substances, as listed in Section 10.		
Handling	Keep exposure to a minimum, and minimise the quantities kept in work areas. See section 8 with regard to personal protective equipment requirements.		
8. Exposure Controls/Personal Protection Equipment			
<i>Workplace Exposure Standards</i>			
A workplace exposure standard (WES) has not been established by WorkSafe NZ for this product. There is a general limit of 10mg/m ³ for dusts and mists when limits have not otherwise been established.			
NZ Workplace Exposure Standards (2016).	Ingredient	WES- TWA	WES- STEL
	No ingredient listed		
<i>Engineering Controls</i>			
In industrial situations, it is expected that employee exposure to hazardous substances will be controlled to a level as far below the WES as practicable by applying the hierarchy of control required by the Health and Safety at Work Act (2015) and the Health and Safety at Work (General Risk and Workplace Management) Regulations 2016. Exposure can be reduced by process modification, use of local exhaust ventilation, capturing substances at the source, or other methods. If you believe air borne concentrations of mists, dusts or vapours are high, you are advised to modify processes or increase ventilation.			

<i>Personal Protective Equipment</i>	
Eyes	Wipes may be irritating to eyes – use eye protection if splashes to the eyes are likely.
Skin	Wipes are possibly irritating to the skin – use gloves if handling product for prolonged or repeated period (rubber or PVC preferably). Wash hands with soap and water after use.
Respiratory	Avoid inhalation of vapour mist. Respirator is not required under normal use.
9. Physical and Chemical Properties	
Appearance:	Wipes moistened with clear liquid
Odour	Characteristic fragrance
pH	10.1 - 10.9
Vapour pressure	No data
Vapour density	No data
Boiling point	No data
Softening/melting point	No data
Solubility	Soluble in water
Specific gravity or density	1.00 at 25°C
Flash point	> 93°C (closed cup)
Upper & lower flammable limits	Not applicable
Auto ignition temperature	Not applicable
10. Stability and Reactivity	
Stability	Stable under use and normal conditions
Conditions to be avoided	No data
Incompatible materials	No data
Hazardous decomposition products	If product has undergone partial or complete evaporation, it may be combustible.
Hazardous reactions	No specific hazards.
11. Toxicological Information	
<i>Summary</i>	
Limited data available on the mixture. This product is not considered toxic if swallowed, absorbed through the skin or inhaled. It is considered a skin and eye irritant. There are no long-term effects associated with exposure by any route.	
<i>Supporting Data</i>	
Acute:	
Oral	The calculated LD ₅₀ is >5000mg/kg.
Dermal	No evidence of dermal toxicity.
Inhaled	No evidence of inhalation toxicity.
Eye	Two of the ingredients are considered strong eye irritants in concentrated form (linear alcohol ethoxylates, <i>n</i> -Propoxypropanol). The pH of the mixture is 10.1 –10.9.
Skin	Two of the ingredients are considered skin irritants in concentrated form (linear alcohol ethoxylates, <i>n</i> -Propoxypropanol). The pH of the mixture is 10.1 –10.9.
Chronic:	
Sensitisation:	No evidence of sensitisation for the mixture of any of its components (>0.1%).
Mutagenicity:	No evidence of mutagenicity for the mixture or any of its components (>0.1%)
Carcinogenicity:	No evidence of carcinogenicity for the mixture.
Reproductive / Developmental:	Insufficient evidence of reproductive toxicity for the mixture or any of its components (>0.1%). No evidence of developmental toxicity for the mixture or any of its components (>0.1%)
Systemic:	No evidence of systemic toxicity for the mixture or any of its components (>0.1%)
Aggravation of Existing Conditions:	None known.

12. Ecological Data

Summary

Limited data available on the mixture. This product is possibly ecotoxic to aquatic organisms and has been conservatively classed as 9.1D (mildly ecotoxic).

Supporting Data

Aquatic	Limited data available on the mixture. One ingredient (linear ethoxylated alcohols) is toxic to fish with a LC ₅₀ ranging from 1-6 mg/L.
Bioaccumulation	Not considered bioaccumulative (>60% water, no evidence for any ingredient present >1%)
Degradability	Considered rapidly degradable.
Soil	Not considered toxic in soil (>60% water, no evidence for any ingredient)
Terrestrial Vertebrate	Animal-based acute toxicity data indicates low toxicity for terrestrial vertebrates.
Terrestrial Invertebrate	No evidence of terrestrial invertebrate toxicity for the mixture or any of its components (>0.1%)
Biocidal	The product is not designed as a biocide.

13. Disposal Considerations

Restrictions	There are no product-specific restrictions, however, local council and resource consent conditions may apply, including requirements of trade waste consents.
Disposal method	Dispose of residue and solutions that cannot be reused to sewer. If this is not possible dilute with water (at least 5 times as much water) and drain.
Contaminated Packaging	Rinse containers with water before disposal. Preferably re-cycle container, otherwise send to landfill or similar.

14. Transport Information

Transport according to NZS 5433 (Transport of Hazardous Substances on Land). There are no specific restrictions for this product (not a dangerous good).

UN Number	Not applicable	Proper Shipping Name	Not applicable
Class(es)	Not applicable	Packing group	Not applicable
Precautions	Not applicable	HAZCHEM code	1[T] (not a dangerous good)

15. Regulatory Information

This product has been approved under the Hazardous Substances and New Organisms Act HSR002530 Cleaning Products (Subsidiary Hazard) Group Standard 2006.

Specific Workplace Controls (as per HSNO approval referenced to Controls Matrix)

Key workplace requirements are:

SDS	To be available within 10 minutes in workplaces storing >50L.
Labelling	No removal of labels and/or decanting of product into other containers can occur.
Emergency plan	Not required.
Approved handler and tracking	Not required.
Bundling and secondary containment	Not required.
Signage	Not required.
Location Test certificate	Not required.

Note: The above workplace requirements apply if only this particular substance is present. The complete set of controls for a location will depend on the classification and total quantities of other substances present in that location.

Other Legislation

In New Zealand, the use of this product may come under the Resource Management Act and Regulations, the Health and Safety at Work Act 2015 and the Health and Safety at Work (General Risk and Workplace Management) Regulations 2016, local Council Rules and Regional Council Plans.

16. Other Information	
<i>Abbreviations</i>	
Approval Code	Approval HSR002530 Cleaning Products (Subsidiary Hazard) Group Standard 2006 Controls, ERMA. www.ermanz.govt.nz
CAS Number	Unique Chemical Abstracts Service Registry Number
Ceiling	Ceiling Exposure Value: The maximum airborne concentration of a biological or chemical agent to which a worker may be exposed at any time.
Controls Matrix	List of default controls linking regulation numbers to Matrix code (e.g. T1, I16).
EC₅₀	Ecotoxic Concentration 50% – concentration in water which is fatal to 50% of a test population (e.g. daphnia, fish species)
EPA	Environmental Protection Authority (New Zealand)
HAZCHEM Code	Emergency action code of numbers and letters that provide information to emergency services, especially fire fighters
HSNO	Hazardous Substances and New Organisms (Act and Regulations)
IARC	International Agency for Research on Cancer
LEL	Lower Explosive Limit
LD₅₀	Lethal Dose 50% – dose which is fatal to 50% of a test population (usually rats).
LC₅₀	Lethal Concentration 50% – concentration in air which is fatal to 50% of a test population (usually rats)
MSDS/SDS	Material Safety Data Sheet (or Safety Data Sheet)
PES	Prescribed Exposure Standard means a WES or a biological exposure standard that is prescribed in a regulation, a safe work instrument or an approval under HSNO (including group standards).
STEL	Short Term Exposure Limit - The maximum airborne concentration of a chemical or biological agent to which a worker may be exposed in any 15 minute period, provided the TWA is not exceeded
TWA	Time Weighted Average – generally referred to WES averaged over typical work day (usually 8 hours)
UEL	Upper Explosive Limit
UN Number	United Nations Number
WES	Workplace Exposure Standard - The airborne concentration of a biological or chemical agent to which a worker may be exposed during work hours (usually 8 hours, 5 days a week). The WES relates to exposure that has been measured by personal monitoring using procedures that gather air samples in the worker's breathing zone.
