

Armor All High Performance Wax & Polish

Safety Data Sheet

1. Identification of Substance and Company

| | |
|-----------------------------|---|
| Product Name: | Armor All High Performance Wax & Polish |
| Other Names: | None |
| HSNO Approval: | HSR002530 - Cleaning Products (Subsidiary Hazard) Group Standard 2006 |
| Proper Shipping name | Not allocated |
| DG class | NA |
| UN Number: | NA |
| Packaging group: | Not Applicable |
| Hazchem Code: | 1T (recommended) |
| Uses: | Wheel cleaner spray |

Company Details

| | |
|------------------------------------|---|
| Company: | Spectrum Brands New Zealand Limited |
| Address: | Level one, 8 Hugo Johnson Drive, Penrose, 1061, Auckland, New Zealand |
| Telephone Number: | +64-9-571-7700 |
| Emergency Telephone Number: | 0800 764 766 |

2. Hazard Identification

Hazard Classifications

| <p>This product has been approved under the Hazardous Substances and New Organisms Act (HSNO, Approval HSR002530 - Cleaning Products (Subsidiary Hazard) Group Standard 2006), and is classified as follows:</p> <p>Classes 6.1E, 6.3A, 6.4A, 9.1D</p> <p>Symbols: WARNING</p> <div style="text-align: center;">  </div> | <p>Degree of hazard:</p> <div style="text-align: center;">  <table border="1" style="margin: 10px auto; border-collapse: collapse;"> <caption>Degree of Hazard Data</caption> <thead> <tr> <th>Hazard Category</th> <th>Degree</th> </tr> </thead> <tbody> <tr> <td>Flammability</td> <td>0</td> </tr> <tr> <td>Acute Toxicity</td> <td>1</td> </tr> <tr> <td>Chronic Toxicity</td> <td>0</td> </tr> <tr> <td>Ecotoxicity</td> <td>1</td> </tr> <tr> <td>Reactivity</td> <td>0</td> </tr> </tbody> </table> </div> | Hazard Category | Degree | Flammability | 0 | Acute Toxicity | 1 | Chronic Toxicity | 0 | Ecotoxicity | 1 | Reactivity | 0 |
|---|---|-----------------|--------|--------------|---|----------------|---|------------------|---|-------------|---|------------|---|
| Hazard Category | Degree | | | | | | | | | | | | |
| Flammability | 0 | | | | | | | | | | | | |
| Acute Toxicity | 1 | | | | | | | | | | | | |
| Chronic Toxicity | 0 | | | | | | | | | | | | |
| Ecotoxicity | 1 | | | | | | | | | | | | |
| Reactivity | 0 | | | | | | | | | | | | |

Other classifications

There are no other Classifications that are known to apply.

Hazard and Precautionary Statements

| | |
|---------------------------------|--|
| Hazard Statements | <ul style="list-style-type: none"> May be harmful if swallowed Causes skin irritation. Causes eye irritation. |
| Precautionary Statements | <ul style="list-style-type: none"> May cause long lasting harmful effects to aquatic life. Keep out of reach of children. Read label before use. Wash hands thoroughly after handling. Wear protective gloves/protective clothing. Wear eye/face protection. Avoid release to the environment. Collect spillage. <p style="text-align: center;">Further precautionary statements can be found in Section 4 – First Aid.</p> |

3. Composition/Information on Ingredients

| Component | CAS/ Identification | Conc (%) |
|---------------------------------|---------------------|-----------|
| Petroleum hydrocarbons | Confidential | 20 - 30 % |
| Sodium hydroxide | 1310-73-2 | 0.5 - 3% |
| Other Non hazardous ingredients | Confidential | 10 – 20% |
| Water | 7732-18-5 | to 100% |

This is a commercial product whose exact ratio of components may vary. Trace quantities of impurities are also likely.

Armor All High Performance Wax & Polish

Safety Data Sheet

| 4. First Aid | |
|---|---|
| <i>General Information</i> | |
| You should call the National Poisons Centre if you feel that you may have been harmed or irritated by this product. The number is 0800 764 766 (0800 POISON) (24 hr emergency service). If medical advice is needed, have product container or label at hand. | |
| Recommended first aid facilities | Ready access to running water is required. Accessible eyewash is recommended. |
| <i>Exposure</i> | |
| Swallowed | IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Do NOT induce vomiting. Rinse mouth. |
| Eye contact | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Apply continuous irrigation with water for at least 15 minutes holding eyelids apart. If eye irritation persists: Get medical advice. |
| Skin contact | IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: get medical advice/attention. Take off contaminated clothing and wash before re-use. |
| Inhaled | No first aid measures normally required. However, if vapours or mists have been inhaled, and irritation has developed, remove to fresh air and observe until recovered. If irritation becomes painful or persists more than about 30 minutes, seek medical advice. |
| <i>Advice to Doctor</i> | |
| Treat symptomatically. | |
| 5. Firefighting Measures | |
| Fire and explosion hazards | There are no specific risks for fire/explosion for this chemical. It is predominantly water and non-flammable. |
| Suitable Extinguishing Substances | This product does not burn. Use extinguishing media suited to the materials that are burning. |
| Unsuitable extinguishing substances | None known. |
| Protective Equipment | Safety boots, non-flammable overalls, gloves, hat and preferably goggles. All skin areas should be covered. |
| Danger caused by material, its combustion products or gases produced | Fire decomposition products from this product may form toxic and corrosive mixtures in confined spaces. Likely to decompose only after heating to dryness followed by further strong heating. Product of decomposition: Carbon dioxide, and if combustion is incomplete, carbon monoxide and smoke. Water. |
| Hazchem Code | 1[T] (note: not a dangerous good) |
| 6. Accidental Release Measures | |
| Containment | If greater than 10,000L is stored, secondary containment and emergency plans to manage any potential spills must be in place. Prevent product from entering environment. |
| Emergency procedures | The bottle size generally will prevent major spills. If a spill occurs: Stop leak if safe/necessary; Isolate area (ensure no persons inside spill area) Collect spill – see below; Transfer to container for disposal Dispose of according to guidelines below (Section 13) |
| Clean-up method | This product is not considered flammable. It can be collected by absorption onto material such as sand, vermiculite or other suitable absorbent material. Small spills do not require any special clean up method. Larger spills (e.g., 200 L) should be prevented from entering stormwater drains or waterways. If a significant quantity of material enters drains, advise emergency services. |
| Disposal | Sweep up and shovel or collect recoverable material into labelled containers for recycling or salvage and dispose of promptly. Recycle containers wherever possible. This material may be suitable for approved landfill. Dispose of only in accord with all regulations. |
| Precautions | Wear protective footwear, overalls, gloves and safety glasses to clean-up large spills. Can be slippery on floors, especially when wet. |
| 7. Handling and Storage | |
| Storage | Avoid storage of toxic substances with food. Store out of reach of children. Containers should be kept closed in order to minimise contamination. Keep from extreme heat and open flames. Avoid contact with incompatible substances, as listed in Section 10. |
| Handling | Keep exposure to a minimum, and minimise the quantities kept in work areas. See section 8 with regard to personal protective equipment requirements. |

Armor All High Performance Wax & Polish

Safety Data Sheet

8. Exposure Controls/Personal Protection Equipment

Workplace Exposure Standards

A workplace exposure standard (WES) has not been established by WorkSafe NZ for this product. There is a general limit of 10mg/m³ for dusts and mists when limits have not otherwise been established.

| NZ Workplace Exposure Standards (2016). | Ingredient | WES- TWA | WES- STEL |
|---|------------------|------------------------------|-----------|
| | Sodium Hydroxide | 2mg/m ³ (ceiling) | No data |

Engineering Controls

In industrial situations, it is expected that employee exposure to hazardous substances will be controlled to a level as far below the WES as practicable by applying the hierarchy of control required by the Health and Safety at Work Act (2015) and the Health and Safety at Work (General Risk and Workplace Management) Regulations 2016. Exposure can be reduced by process modification, use of local exhaust ventilation, capturing substances at the source, or other methods. If you believe air borne concentrations of mists, dusts or vapours are high, you are advised to modify processes or increase ventilation.

Personal Protective Equipment

Eyes  Protective eyewear is not normally necessary when using this product. However, it is always prudent to use protective eyewear.

Skin  Protective gloves are not normally necessary when using this product. However, it is always prudent to wear gloves, particularly if sensitive to chemicals.

Respiratory Respirator is not required under normal use. If product is being used in confined conditions, the use of a mask or respirator may be preferred.

9. Physical and Chemical Properties

| | |
|---|--------------------------------|
| Appearance: | Beige coloured liquid |
| Odour | Coconut fragrance |
| pH | 7 – 8.5 (specification) |
| Vapour pressure | Water vapour pressure |
| Vapour density | No data |
| Boiling point | Approximately 100°C at 100 kPa |
| Volatile materials | Water component |
| Softening/melting point | Approximately 0°C |
| Solubility | Completely soluble in water |
| Specific gravity or density | Not available |
| Flash point | Not applicable (does not burn) |
| Upper & lower flammable limits | Not applicable (does not burn) |
| Auto ignition temperature | Not applicable (does not burn) |
| Corrosiveness | Not corrosive |

10. Stability and Reactivity

| | |
|---|--|
| Stability | Stable - unlikely to react/decompose under normal conditions |
| Conditions to be avoided | Mixing with other cleaning chemicals should be avoided. |
| Incompatible materials | No particular incompatibilities |
| Hazardous decomposition products | Carbon dioxide, and if combustion is incomplete, carbon monoxide and smoke. Oxides of sulfur. Water. |
| Hazardous reactions | No specific hazards. |

11. Toxicological Information

Summary

Limited data available on the mixture. This product is not considered toxic if swallowed, absorbed through the skin or inhaled. It is considered a skin and eye irritant. There are no long-term effects associated with exposure by any route.

Supporting Data

| | | |
|---------------|----------------|---|
| Acute: | Oral | This mixture is not considered to be harmful if swallowed. Using LD ₅₀ 's for ingredients, the calculated LD ₅₀ (oral, rat) for the mixture is between 2000 and 5,000 mg/kg. No evidence of dermal toxicity. No evidence of inhalation toxicity. |
| | Dermal | |
| | Inhaled | |
| | Eye | |
| | Skin | One of the ingredients is considered a strong eye irritant or corrosive in concentrated form (acidity regulator). Applying HSNO mixing rules, mixtures with total concentrations of corrosives at 1 to 3% should be considered eye irritants. The pH of the mixture is 7 – 8.5. Several of the ingredients (as above) are considered corrosive to the skin in more concentrated form. The mixture is over 70% water, but it is considered possibly mildly irritating to the skin (based on HSNO mixture rules). |

Armor All High Performance Wax & Polish

Safety Data Sheet

| | | |
|-----------------|--------------------------------------|--|
| Chronic: | Sensitisation: | No evidence of sensitisation for the mixture or any of its components (>0.1%) |
| | Mutagenicity: | No evidence of mutagenicity for the mixture or any of its components (>0.1%) |
| | Carcinogenicity: | No evidence of carcinogenicity for the mixture. |
| | Reproductive / Developmental: | No evidence of reproductive toxicity for the mixture or any of its components (>0.1%). |
| | Systemic: | No evidence of developmental toxicity for the mixture or any of its components (>0.1%) |

| | |
|--|-------------|
| Aggravation of Existing Conditions: | None known. |
|--|-------------|

12. Ecological Data

Summary
 This product is unlikely to be considered ecotoxic in water or to land-based animals. However, as there is insufficient evidence relating to some of the confidential ingredients, the product has been conservatively classed as 9.1D (mildly ecotoxic)

| | |
|---------------------------------|--|
| <i>Supporting Data</i> | |
| Aquatic | Limited data available on the mixture. One of the ingredients is considered to be harmful to aquatic organism in concentrated form (hydrocarbons). |
| Bioaccumulation | Not considered bioaccumulative (>70% water, no evidence for any ingredient) |
| Degradability | Considered rapidly degradable (>70% water, no evidence of persistence for any ingredient) |
| Soil | Not considered toxic in soil (>70% water, no evidence for any ingredient) |
| Terrestrial Vertebrate | Animal-based acute toxicity data indicates low toxicity for terrestrial vertebrates |
| Terrestrial Invertebrate | No evidence of terrestrial invertebrate toxicity for the mixture or any of its components (>0.1%) |
| Biocidal | The product is not designed as a biocide. |

13. Disposal Considerations

| | |
|-------------------------------|---|
| Restrictions | There are no product-specific restrictions, however, local council and resource consent conditions may apply, including requirements of trade waste consents. |
| Disposal method | Dispose of residue and solutions that cannot be reused to sewer. If this is not possible dilute with water (at least 5 times as much water) and drain. |
| Contaminated Packaging | Rinse containers with water before disposal. Preferably re-cycle container, otherwise send to landfill or similar. |

14. Transport Information

| | | | |
|---|----|-----------------------------|------------------|
| There are no specific restrictions for this product (not a dangerous good). | | | |
| UN Number | NA | Proper Shipping Name | NA |
| Class(es) | NA | Packing group | NA |
| Precautions | NA | HAZCHEM code | 1T (recommended) |

15. Regulatory Information

This product has been approved under the Hazardous Substances and New Organisms Act HSR002530 Cleaning Products (Subsidiary Hazard) Group Standard 2006.

Specific Workplace Controls (as per HSNO approval referenced to Controls Matrix)

| | |
|---|---|
| Key workplace requirements are: | |
| SDS | To be available within 10 minutes in workplaces storing >50L. |
| Labelling | No removal of labels and/or decanting of product into other containers can occur. |
| Emergency plan | Required if >10000l is stored. |
| Approved handler | Not required. |
| Tracking | Not required. |
| Bundling & secondary containment | Required if >10000l is stored. |
| Signage | Required if >10000l is stored. |
| Location Test certificate | Not required. |
| Flammable zone | Not required. |
| Fire extinguisher | Not required. |
| Note: The above workplace requirements apply if only this particular substance is present. The complete set of controls for a location will depend on the classification and total quantities of other substances present in that location. | |

Other Legislation
 In New Zealand, the use of this product may come under the Resource Management Act and Regulations, the Health and Safety at Work Act 2015 and the Health and Safety at Work (General Risk and Workplace Management) Regulations 2016, local Council Rules and Regional Council Plans.

Armor All High Performance Wax & Polish

Safety Data Sheet

| 16. Other Information | |
|---|--|
| <i>Abbreviations</i> | |
| Approval Code | Approval HSR002530 Cleaning Products (Subsidiary Hazard) Group Standard 2006.Controls, EPA. www.epa.govt.nz |
| CAS Number | Unique Chemical Abstracts Service Registry Number |
| Ceiling | Ceiling Exposure Value: The maximum airborne concentration of a biological or chemical agent to which a worker may be exposed at any time. |
| Controls Matrix | List of default controls linking regulation numbers to Matrix code (e.g. T1, I16). |
| EC₅₀ | Ecotoxic Concentration 50% – concentration in water which is fatal to 50% of a test population (e.g. daphnia, fish species) |
| EPA | Environmental Protection Authority (New Zealand) |
| HAZCHEM Code | Emergency action code of numbers and letters that provide information to emergency services, especially fire fighters |
| HSNO | Hazardous Substances and New Organisms (Act and Regulations) |
| IARC | International Agency for Research on Cancer |
| LEL | Lower Explosive Limit |
| LD₅₀ | Lethal Dose 50% – dose which is fatal to 50% of a test population (usually rats). |
| LC₅₀ | Lethal Concentration 50% – concentration in air which is fatal to 50% of a test population (usually rats) |
| MSDS/SDS | Material Safety Data Sheet (or Safety Data Sheet) |
| PES | Prescribed Exposure Standard means a WES or a biological exposure standard that is prescribed in a regulation, a safe work instrument or an approval under HSNO (including group standards). |
| STEL | Short Term Exposure Limit - The maximum airborne concentration of a chemical or biological agent to which a worker may be exposed in any 15 minute period, provided the TWA is not exceeded |
| TWA | Time Weighted Average – generally referred to WES averaged over typical work day (usually 8 hours) |
| UEL | Upper Explosive Limit |
| UN Number | United Nations Number |
| WES | Workplace Exposure Standard - The airborne concentration of a biological or chemical agent to which a worker may be exposed during work hours (usually 8 hours, 5 days a week). The WES relates to exposure that has been measured by personal monitoring using procedures that gather air samples in the worker's breathing zone. |
