

## 1. Identification of Substance and Company

<b>Product Name:</b>	Armor All Leather Wipes
<b>Other Names:</b>	None
<b>HSNO Approval:</b>	HSR002530 - Cleaning Products (Subsidiary Hazard) Group Standard 2006
<b>UN Number:</b>	Not Applicable
<b>Packaging group:</b>	Not Applicable
<b>Hazchem Code:</b>	1[T] (recommended)
<b>Uses:</b>	Wipes moistened with milky white liquid to clean and protect leather surfaces

### Company Details

<b>Company:</b>	<b>Spectrum Brands New Zealand Limited</b>
<b>Address:</b>	Level one, 8 Hugo Johnson Drive, Penrose, 1061, Auckland, New Zealand
<b>Telephone Number:</b>	+64-9-571-7700
<b>Emergency Telephone Number:</b>	0800 764 766

## 2. Hazard Identification

### Hazard Classifications

This product has been approved under the Hazardous Substances and New Organisms Act (HSNO, Approval HSR002530 Cleaning Products (Subsidiary Hazard) Group Standard 2006), and is classified as follows:	Degree of hazard:																																				
Classes 6.4A	<table><tr><td>5</td><td></td><td></td><td></td><td></td></tr><tr><td>4</td><td></td><td></td><td></td><td></td></tr><tr><td>3</td><td></td><td></td><td></td><td></td></tr><tr><td>2</td><td></td><td></td><td></td><td></td></tr><tr><td>1</td><td></td><td></td><td></td><td></td></tr><tr><td>0</td><td></td><td></td><td></td><td></td></tr><tr><td></td><td>Flammability</td><td>Acute Toxicity</td><td>Chronic Toxicity</td><td>Ecotoxicity</td><td>Reactivity</td></tr></table>	5					4					3					2					1					0						Flammability	Acute Toxicity	Chronic Toxicity	Ecotoxicity	Reactivity
5																																					
4																																					
3																																					
2																																					
1																																					
0																																					
	Flammability	Acute Toxicity	Chronic Toxicity	Ecotoxicity	Reactivity																																
Symbols: <b>WARNING</b>																																					

### Other classifications

There are no other Classifications that are known to apply.

### Hazard and Precautionary Statements

<b>Hazard Statements</b>	Causes eye irritation.
<b>Precautionary Statements</b>	Read label before use. Further precautionary statements can be found in Section 4 – First Aid.

## 3. Composition/Information on Ingredients

Component	CAS No	Proportion
Silicone Emulsion	proprietary	2-10%
Wipes (polymer, inert)	Proprietary	To 100%

This is a commercial product whose exact ratio of components may vary. Trace quantities of impurities are also likely.

## 4. First Aid

### General Information

You should call the National Poisons Centre if you feel that you may have been harmed or irritated by this product. The number is 0800 764 766 (24 hr emergency service).

<b>Recommended first aid facilities</b>	Ready access to running water is recommended. Accessible eyewash is recommended.
---	--

### Exposure

<b>Swallowed</b>	Give a glass of water to drink. If effects occur, contact the National Poisons Centre or a Doctor.
<b>Eye contact</b>	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Apply continuous irrigation with water for at least 15 minutes holding eyelids apart. If eye irritation persists: Get medical advice.
<b>Skin contact</b>	IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: get medical advice/attention. Take off contaminated clothing and wash before re-use.
<b>Inhaled</b>	If breathing problems occur, remove to fresh air

### Advice to Doctor

Treat symptomatically.

5. Firefighting Measures			
<b>Fire and explosion hazards</b>	Non-flammable and non-explosive.		
<b>Suitable Extinguishing Substances</b>	Water, water fog, dry chemical, foam or carbon dioxide (CO <sub>2</sub> ) fire extinguishers		
<b>Unsuitable extinguishing substances</b>	None known.		
<b>Protective Equipment</b>	Respiratory protection.		
<b>Danger caused by material, its combustion products or gases produced</b>	If product has undergone partial or complete evaporation, it may be combustible.		
<b>Hazchem Code</b>	1[T] (note: not a dangerous good)		
6. Accidental Release Measures			
<b>Containment</b>	There is no current legal requirement for containment of this product. Secondary containment is recommended.		
<b>Emergency procedures</b>	The packaging and nature of the product generally will prevent major spills. If wipes do spill: Stop spill if safe/necessary Isolate area (ensure no persons inside spill area) Collect wipes – see below Transfer to container for disposal		
<b>Clean-up method</b>	Dispose of according to guidelines below (Section 13) This product is not considered flammable or ecotoxic. Small spills do not require any special clean up method. Larger spills should be mopped up and collected.		
<b>Disposal</b>	Wear protective footwear, overalls, gloves and safety glasses to clean-up large spills.		
<b>Precautions</b>	Prevent spillage from spreading or entering soil, waterways or drains.		
7. Handling and Storage			
<b>Storage</b>	Avoid storage of toxic substances with food. Store out of reach of children. Avoid contact with incompatible substances, as listed in Section 10.		
<b>Handling</b>	Keep exposure to a minimum, and minimise the quantities kept in work areas. See section 8 with regard to personal protective equipment requirements.		
8. Exposure Controls/Personal Protection Equipment			
<i>Workplace Exposure Standards</i>			
A workplace exposure standard (WES) has not been established by WorkSafe NZ for this product. There is a general limit of 10mg/m <sup>3</sup> for dusts and mists when limits have not otherwise been established.			
NZ Workplace Exposure Standards (OSH, 2016).	Ingredient	WES- TWA	WES- STEL
	No ingredient listed		
<i>Engineering Controls</i>			
In industrial situations, it is expected that employee exposure to hazardous substances will be controlled to a level as far below the WES as practicable by applying the hierarchy of control required by the Health and Safety at Work Act (2015) and the Health and Safety at Work (General Risk and Workplace Management) Regulations 2016. Exposure can be reduced by process modification, use of local exhaust ventilation, capturing substances at the source, or other methods. If you believe air borne concentrations of mists, dusts or vapours are high, you are advised to modify processes or increase ventilation.			
<i>Personal Protective Equipment</i>			
<b>Eyes</b>	Wipes may be irritating to eyes – use eye protection if contact is likely.		
<b>Skin</b>	Use gloves if handling product for prolonged or repeated period (rubber or PVC preferably). Wash hands with soap and water after use.		
<b>Respiratory</b>	A respirator when airborne concentrations approach the WES (section 8). If using a respirator, ensure that the cartridges are correct for the potential air contamination and are in good working order.		

9. Physical and Chemical Properties	
Appearance:	Wipes moistened with milky white liquid
Odour	Slight odour
pH	7 (specification)
Vapour pressure	No data
Vapour density	No data
Boiling point	Approximately 100°C
Softening/melting point	Approximately 0°C
Solubility	Easily soluble in water
Specific gravity or density	1.00 at 25°C
Flash point	Not applicable (does not burn)
Upper & lower flammable limits	Not applicable (does not burn)
Auto ignition temperature	Not applicable (does not burn)
Evaporation rate	0.4 (butyl acetate = 1)
10. Stability and Reactivity	
Stability	Stable under use and normal conditions
Conditions to be avoided	No data
Incompatible materials	No data
Hazardous decomposition products	If product has undergone partial or complete evaporation, it may be combustible.
Hazardous reactions	No specific hazards.
11. Toxicological Information	
<i>Summary</i>	
Limited data available on the mixture. This product is not considered toxic if swallowed, absorbed through the skin or inhaled. It is considered a skin and eye irritant. There are no long-term effects associated with exposure by any route.	
<i>Supporting Data</i>	
<b>Acute:</b>	
<b>Oral</b>	The calculated LD <sub>50</sub> is >5000mg/kg.
<b>Dermal</b>	No evidence of dermal toxicity.
<b>Inhaled</b>	No evidence of inhalation toxicity.
<b>Eye</b>	This mixture is considered to be an eye irritant. Some of the ingredients present (silicone emulsion) are considered irritating in higher concentrations.
<b>Skin</b>	This mixture is not considered to be a skin irritant.
<b>Chronic:</b>	
<b>Sensitisation:</b>	No evidence of sensitisation for the mixture of any of its components (>0.1%).
<b>Mutagenicity:</b>	No evidence of mutagenicity for the mixture or any of its components (>0.1%)
<b>Carcinogenicity:</b>	No evidence of carcinogenicity for the mixture.
<b>Reproductive / Developmental:</b>	Insufficient evidence of reproductive toxicity for the mixture or any of its components (>0.1%). No evidence of developmental toxicity for the mixture or any of its components (>0.1%)
<b>Systemic:</b>	No evidence of systemic toxicity for the mixture or any of its components (>0.1%)
<b>Aggravation of Existing Conditions:</b>	None known.
12. Ecological Data	
<i>Summary</i>	
Limited data available on the mixture. This product is not considered ecotoxic in water or to land-based animals.	
<i>Supporting Data</i>	
<b>Aquatic Bioaccumulation</b>	Limited data available on the mixture. Not considered bioaccumulative (>60% water, no evidence for any ingredient present >1%)
<b>Degradability</b>	Considered rapidly degradable.
<b>Soil</b>	Not considered toxic in soil (>60% water, no evidence for any ingredient)
<b>Terrestrial Vertebrate</b>	Animal-based acute toxicity data indicates low toxicity for terrestrial vertebrates
<b>Terrestrial Invertebrate</b>	No evidence of terrestrial invertebrate toxicity for the mixture or any of its components (>0.1%)
<b>Biocidal</b>	The product is not designed as a biocide.

## 13. Disposal Considerations

<b>Restrictions</b>	There are no product-specific restrictions, however, local council and resource consent conditions may apply, including requirements of trade waste consents.
<b>Disposal method</b>	Dispose of residue and solutions that cannot be reused to sewer. If this is not possible dilute with water (at least 5 times as much water) and drain.
<b>Contaminated Packaging</b>	Rinse containers with water before disposal. Preferably re-cycle container, otherwise send to landfill or similar.

## 14. Transport Information

There are no specific restrictions for this product (not a dangerous good).			
<b>UN Number</b>	Not applicable	<b>Proper Shipping Name</b>	Not applicable
<b>Class(es)</b>	Not applicable	<b>Packing group</b>	Not applicable
<b>Precautions</b>	Not applicable	<b>HAZCHEM code</b>	1[T] (not a dangerous good)

## 15. Regulatory Information

This product has been approved under the Hazardous Substances and New Organisms Act HSR002530 Cleaning Products (Subsidiary Hazard) Group Standard 2006.

*Specific Workplace Controls (as per HSNO approval referenced to Controls Matrix)*

<b>Key workplace requirements are:</b>	
<b>SDS</b>	To be available within 10 minutes in workplaces storing >50L.
<b>Labelling</b>	No removal of labels and/or decanting of product into other containers can occur.
<b>Emergency plan</b>	Not required.
<b>Approved handler and tracking</b>	Not required.
<b>Bundling and secondary containment</b>	Not required.
<b>Signage</b>	Not required.
<b>Location Test certificate</b>	Not required.
Note: The above workplace requirements apply if only this particular substance is present. The complete set of controls for a location will depend on the classification and total quantities of other substances present in that location.	

*Other Legislation*

In New Zealand, the use of this product may come under the Resource Management Act and Regulations, the Health and Safety at Work Act 2015 and the Health and Safety at Work (General Risk and Workplace Management) Regulations 2016, local Council Rules and Regional Council Plans.

## 16. Other Information

<i>Abbreviations</i>	
<b>Approval Code</b>	Approval HSR002530 Cleaning Products (Subsidiary Hazard) Group Standard 2006 Controls, ERMA. <a href="http://www.ermanz.govt.nz">www.ermanz.govt.nz</a>
<b>CAS Number</b>	Unique Chemical Abstracts Service Registry Number
<b>Ceiling</b>	Ceiling Exposure Value: The maximum airborne concentration of a biological or chemical agent to which a worker may be exposed at any time.
<b>Controls Matrix</b>	List of default controls linking regulation numbers to Matrix code (e.g. T1, I16).
<b>EC<sub>50</sub></b>	Ecotoxic Concentration 50% – concentration in water which is fatal to 50% of a test population (e.g. daphnia, fish species)
<b>EPA</b>	Environmental Protection Authority (New Zealand)
<b>HAZCHEM Code</b>	Emergency action code of numbers and letters that provide information to emergency services, especially fire fighters
<b>HSNO</b>	Hazardous Substances and New Organisms (Act and Regulations)
<b>IARC</b>	International Agency for Research on Cancer
<b>LEL</b>	Lower Explosive Limit
<b>LD<sub>50</sub></b>	Lethal Dose 50% – dose which is fatal to 50% of a test population (usually rats).
<b>LC<sub>50</sub></b>	Lethal Concentration 50% – concentration in air which is fatal to 50% of a test population (usually rats)
<b>MSDS/SDS</b>	Material Safety Data Sheet (or Safety Data Sheet)
<b>PES</b>	Prescribed Exposure Standard means a WES or a biological exposure standard that is prescribed in a regulation, a safe work instrument or an approval under HSNO (including group standards).
<b>STEL</b>	Short Term Exposure Limit - The maximum airborne concentration of a chemical or biological agent to which a worker may be exposed in any 15 minute period, provided the TWA is not exceeded
<b>TWA</b>	Time Weighted Average – generally referred to WES averaged over typical work day (usually 8 hours)
<b>UEL</b>	Upper Explosive Limit
<b>UN Number</b>	United Nations Number
<b>WES</b>	Workplace Exposure Standard - The airborne concentration of a biological or chemical agent to which a worker may be exposed during work hours (usually 8 hours, 5 days a week). The WES relates to exposure that has been measured by personal monitoring using procedures that gather air samples in the worker's breathing zone.
